**Job Description**

Stevens Institute of Technology (Stevens) seeks a visionary and accomplished academic and administrative leader as the Chair of the Department of Mechanical Engineering (ME). The next ME Chair will report to the Dean of the Schaefer School of Engineering and Science (SES) and work closely with the leadership team of the University as the Institute continues to increase its impact and to fulfill its vision of being a world-class, student-centric research university. Qualified individuals will also be considered for an endowed chair position within SES. The Endowed Chair is expected to have a record of exemplary research, demonstrated leadership with building and managing a significant research enterprise, a strong interest and ability in promoting sponsored research programs and mentoring faculty, commitment to excellence in teaching, and a strategic vision that will position the ME Department prominently at the national and international stage.

The beautiful Stevens campus enjoys a strategic location on Castle Point on the Hudson, in close proximity to New York City. The ME department is the oldest and largest academic unit at Stevens,

with roots dating back to the founding of ASME at Stevens. ME is one of the eight departments in the SES and plays a critical role in the success of the entire university. ME maintains a rigorous commitment to preparing the next generation of technology leaders by offering a multi-disciplinary, design-based education. The department offers Bachelor's, Master's and Ph.D. programs in mechanical engineering. The ME Department is dedicated to supporting hands-on learning, research, and technology transfer that provides each student with invaluable, experiential knowledge.

The department currently has 24 full time faculty members, and its interdisciplinary approach has allowed it to attract and retain world-class faculty and achieve prominence in five signature areas: Design and Manufacturing, Robotics and Control, Nanotechnology and multiscale systems, Thermal/Fluid/Energy Systems, and Bio-Engineering.

Applicants must hold an earned doctorate in Mechanical Engineering and an exemplary record of scholarly activities in a relevant field. Candidates are invited to apply via the Stevens Institute of Technology website at: <https://www.stevens.edu/directory/division-human-resources/employment-opportunities>

Please attach a cover letter and a curriculum vita with the application. In addition we require a research statement, a teaching statement, an administrative experience and vision statement, copies of between one and three publications, and contact information for three references. We will only contact your references if you are short-listed for the position and we will seek your permission before doing so.

Questions regarding the position should be directed to the Chair of the Search Committee, Dr. Hamid Hadim ([ahadim@stevens.edu](mailto:ahadim@stevens.edu)).
