Job Description	

The Department of Aerospace and Mechanical Engineering at the University of Arizona invites applications for a tenure-track/tenured faculty position in CubeSat or SmallSat propulsion. Technical expertise in chemical, electrical or new, unconventional, hybrid propulsion systems is desired. Candidates with demonstrated expertise that blends theory, experiment and practice in spacecraft propulsion will be viewed favorably. In addition, having experience and interest in propulsion support technologies including power systems, fuel storage, Guidance, Navigation and Control (GNC) will be an advantage. The appointment may be at all levels and rank, although Assistant Professor is envisioned. The positions can begin as early as January 2019.

The successful candidates will be expected to develop and teach graduate and undergraduate courses in Aerospace and Mechanical Engineering, establish internationally recognized and externally funded research programs, advise and mentor graduate and undergraduate students, and undertake service activities within the University and in the professional community at national and international levels. Opportunities exist for synergy with research activities in the Department and the University, including an initiative in Space Situational Awareness (SSA), CubeSats and Earth Sciences.

Required qualifications are a Ph.D. degree in Aerospace or Mechanical Engineering or closely related discipline, and demonstrated research potential or accomplishments. Interested applicants are asked to submit:

- Cover letter specifying their primary area of expertise and interest mentioned as above;
- Research and teaching statements describing the candidate's research vision and teaching interests;
- Professional CV with a list of publications and at least three professional references

Interested applicants should consult the university website, <http://uacareers.com/postings/27699> then follow instructions to make a formal application for this position.

The University of Arizona has been listed by Forbes as one of America's Best Employers in the United States and WorldatWork and the Arizona Department of Health Services have recognized us for our innovative work-life programs.
