Successful candidates will play a key role in supporting the College of Computer Science and Information Technology in achieving its mission and vision for its undergraduate programs.

Required Education:

- Master's or Ph.D. in Forensic Computing, Cyber Security, Software Engineering or Computer Science

Preferred Education and Experience:

- Candidate with at least three years of experience teaching in higher education.
- Industrial work experience is highly preferable.
- High quality and up-to-date publications in ISI-indexed journals in the past 5 years will give an advantage to the applicant.
- Candidates with project proposal writing, and project-leading capability, related to the relevant field is highly recommended.
- Having supervised PhD and Masters students related to the relevant field is also a plus point.
