**Job Description**

We have several PhD Research Assistant position openings in Fall 2020 and Spring 2021 in the areas of fatigue and fracture of engineering materials and structures. The successful candidate will work in the well-equipped Fatigue and Fracture Research Laboratory under the directorship of Professor Ali Fatemi. Current sponsored research projects are focused on metal additive manufacturing, therefore, candidates with familiarity with additive manufacturing are preferred. More information about the research area and Fatigue and Fracture Research Laboratory visit: <https://www.memphis.edu/me/faculty/afatemi.php>
