management, water treatment, etc.

Must be eligible to register as Graduate Engineer with Board of Engineers Malaysia (BEM). For non-Malaysians with Bachelor of Engineering qualifications from non-Malaysian universities, professional qualifications recognised by BEM can be considered as equivalent to being registered as Graduate Engineer.

A strong record of successful and innovative curriculum development

An outstanding record of teaching, and educational leadership, which demonstrates a commitment to innovation and excellence

An outstanding research record, demonstrated by world class publications, grants and PhD supervision

An outstanding record in research leadership including generating research income, leading major research projects and, where relevant, building research teams

Proven ability to promote the discipline internally within the university as well as externally, both nationally and internationally

High level collaborative leadership skills that unite and inspire people creating a culture of high performance and collegiality

Demonstrated record of being experienced in the local context of Civil Engineering research and practice.

Monash University is Australia's largest university, and a member of the prestigious Group of Eight research intensive universities. In the most recent QS World University Rankings, Monash rated 55 in the world.

Monash is a global university. In addition to its four Australian campuses, it has a comprehensive campus in Malaysia and centres for graduate education in China and India. It also has a teaching and conference centre in Italy. A unique alliance with the University of Warwick (UK) sits alongside an array of international collaborations with leading universities and corporations around the world, expanding the University's global network.

Monash University Malaysia is Monash's third largest campus, with over 8000 students and 900 staff. We are a comprehensive campus offering degrees in business, engineering, medicine, science, information technology, pharmacy, social science and humanities across seven Schools. We are rated among the very best among universities in Malaysia, and the quality of our research output positions us among the very best universities in Southeast Asia.

Monash University Malaysia provides Monash University with a platform for scholarly engagement with the dynamic Southeast Asia region. We are located in greater Kuala Lumpur, in the Klang Valley, one of the region's industrial hotspots. We sit in the heart of the rapidly developing economic corridor linking Singapore, Kuala Lumpur, Bangkok and beyond. Our education and research is oriented towards deep engagement with this dynamic social and industrial landscape.

In 2018, we celebrated our twentieth anniversary in Malaysia. Since our establishment in 1998 we have produced more than 16,800 graduates from more than 78 countries. We provide a diverse and

The School of Engineering continues to grow rapidly, particularly in the delivery of undergraduate programs, and through the expansion of its facilities and infrastructure. In addressing global engineering challenges of the 21st century, the expansion of research activities in our Malaysian campus is of high priority for the University, reflected by the significant increase of school collaborative partnership with the industry sector, and through the offering of the Higher Degrees by Research, the Master of Engineering Science (Research) and the Doctor of Philosophy (PhD). The School currently has close to 1,500 undergraduate students, consisting of approximately 70 academic staff, and 42 professional and technical support staff.

The School offers the 4-year Bachelor degree in 6 disciplines: Chemical Engineering, Civil Engineering, Electrical and Computer Systems Engineering, Mechanical Engineering, Robotics and Mechatronics Engineering and Software Engineering. These are the 6 core disciplines of Engineering, driven by the strong and growing demand for capable graduates in Malaysia, the Asian region and beyond.

In line with the School Development Plan and to meet the thriving market demand, the school has recently started to offer the Master of Advanced Engineering (Energy and Sustainability), a 1-year Master by coursework program.
