to be a catalyst towards Abu Dhabi's 2030 vision for a knowledge-based economy. Khalifa University has three campuses in the city of Abu Dhabi - the KU Main Campus, Masdar City Campus and the Sas Al Nakhl Campus, the latter two housing the internationally renowned Masdar and Institute and Petroleum Institute, respectively.

#### College of Engineering

The College is distinguishing itself as a major contributor towards economic diversification within Abu Dhabi and the region, particularly through its close alignment with growing regional industries in key themes such as Energy, Aerospace, Healthcare, Transportation and Telecommunications.

The College of Engineering is a vibrant community of academic scholars, students and staff who are dedicated to engineering education and innovation for the ultimate benefit of society. To serve this purpose, the College empowers students with a great sense of purposeful academic curiosity of the physical world and appreciation of the social and environmental context within a rapidly changing world.

#### About the Department

The Department of Civil Infrastructure and Environment Engineering, an academic unit within the College of Engineering at Khalifa University in Abu Dhabi, UAE, is dedicated to the advancement of learning and knowledge through teaching, research and outreach in the areas of Geotechnical Engineering, Structural Engineering and Mechanics, Urban Infrastructures, Construction Engineering and Management, Transportation Engineering, Water Resources and Environmental Engineering.

Detailed information can be found at:

<https://www.ku.ac.ae/academics/college-of-engineering/department/department-of-civil-infrastructure-and-environmental-engineering/>

The Department invites applications for faculty positions in all ranks from candidates with demonstrable experience in the field of Geotechnical Engineering and/or in the field of Coastal Engineering. The candidates are expected to have a strong research potential, demonstrated by relevant publications in high-impact journals, and teaching experience in the above mentioned areas. The candidates must possess excellent communication skills.

Successful candidates are expected to teach at the undergraduate and graduate levels, establish and maintain active research programs that lead to peer-reviewed publications in high-impact professional journals, and provide service to the department, the university, and the profession. Successful candidates are also expected to be involved in thematic research within one or more of the university research priority areas.
