education to produce world leaders and critical thinkers in science, engineering and medicine, and also to be a catalyst towards Abu Dhabi's 2030 vision for a knowledge-based economy. Khalifa University has three campuses in the city of Abu Dhabi - the KU Main Campus, Masdar City Campus and the Sas Al Nakhl Campus, the latter two housing the internationally renowned Masdar and Institute and Petroleum Institute, respectively.

College of Engineering

The College is distinguishing itself as a major contributor towards economic diversification within Abu Dhabi and the region, particularly through its close alignment with growing regional industries in key themes such as Energy, Aerospace, Healthcare, Transportation and Telecommunications.

The College of Engineering is a vibrant community of academic scholars, students and staff who are dedicated to engineering education and innovation for the ultimate benefit of society. To serve this purpose, the College empowers students with a great sense of purposeful academic curiosity of the physical world and appreciation of the social and environmental context within a rapidly changing world.

About the Department

The Department of Electrical Engineering and Computer Science is the oldest academic unit within the College of Engineering with a long tradition on academic teaching and research excellence. Its undergraduate academic programs are ABET accredited and diverse, with tracks that focus on electrical, electronic, communications, controls, instrumentation, automation, power, software, and computer engineering. It also offers high-calibre graduate programs on both Masters and PhD level and has an established record of successfully completed projects in cutting-edge research themes.

Detailed information can be found at:

<http://www.ku.ac.ae/pages/department-of-electrical-and-computer-engineering/>

The department invites applications for faculty positions in all ranks and in any discipline relevant to Electrical Engineering and Computer . Particular emphasis is for candidates with a background in one or more of the following areas: computer science, software, machine learning, big data, antennas, security, and embedded systems. The candidate is expected to have a strong research potential, demonstrated by relevant publications in high-impact journals, and teaching experience in above mentioned areas. The candidate must possess excellent communication skills. Successful candidates are expected to teach at the undergraduate and graduate levels, establish and maintain active research programs that lead to peer-reviewed publications in high-impact professional journals, and provide service to the department, the university, and the profession. Successful candidates are also expected
