Engineering at Clarkson University invites applications for a tenure track position at the Assistant or Associate Professor rank in Aerospace Engineering (starting date: July 2021 or earlier). A Ph.D. in Aerospace Engineering or related area is required. Applications are sought from an individual whose particular research includes space systems design, including a focus in, but not limited to space/air missions, space robotics, satellite design, guidance/navigation/control systems, astronautical power and propulsion, and other related areas of aerospace engineering.

Clarkson's MAE Department currently offers B.S. degrees in Mechanical Engineering and Aeronautical Engineering, and M.S. and Ph.D. degrees in Mechanical Engineering, and is planning to expand into the Aerospace Engineering. Successful candidates will be expected to teach fundamental undergraduate and graduate courses in aerospace engineering and develop strong externally funded research programs. Applicants should articulate a clear and substantiated vision of how their background can lead to sustained accomplishments through teaching, research, and an ability to engage in interdisciplinary activities and projects within one of the areas identified above.

Additional information about the MAE Department and the Coulter School of Engineering can be found at <https://www.clarkson.edu/academics/engineering/mechanical-aeronautical-engineering>. Direct inquires and applications, including a CV, both research and teaching statements, and contact information for at least three professional references to Clarkson University's Human Resources department. To submit your application, go to <https://clarkson.peopleadmin.com> and click "Faculty." Review of applications will begin immediately, and applications received by March 1, 2021 will receive full consideration.

An equal opportunity/affirmative action employer, Clarkson University is committed to building a culturally diverse community of faculty, staff, and students dedicated to contributing to an inclusive campus environment.

The university actively seeks and strongly encourages applications from women, minorities, individuals with disabilities.

All offers of employment are subject to the applicant successfully passing a background check (including but not limited to, employment verification, education and other credential verification, and criminal records.)
