Job Description

Requirements

A Doctorate (NQF Level 10) in Mechanical Engineering with at least seven years of lecturing experience at tertiary education level and/or industry experience or an equivalent combination of relevant professional experience. Excellent English Communication Skills (oral and written). Proven competence in successful sourcing of research or project funding from third-party sources, successful initiation and management of research projects, curriculum development, and strong management/organisational and mentorship skills. Competence to develop high-quality course materials and teach at least three of the following courses at both under- and post-graduate levels: Fluid Mechanics, Thermodynamics, Thermo-fluid and Renewable Energy. Competence to assume academic leadership, to establish professional networks, and to maintain links with industry, as well as experience in developing post-graduate programmes. Sound research profile including ten peer-reviewed journal articles/books/conference proceedings and successful supervision of at least three Master's (research) students.

KEY PERFORMANCE AREAS

**Associate Professor: Thermo-fluid
Namibia University of Science and Technology**
