<b>Job Description</b>	

Oregon State University | College of Engineering

The School of Electrical Engineering and Computer Science (EECS) at Oregon State University invites applications for multiple tenure-track faculty positions in the areas of novel electronic devices, sensing and signal processing. These positions will strengthen and support the university's vision of leading world-class team-based, interdisciplinary research and education in ocean, earth and climate science; and technologies for bettering the quality of human life. The appointments will be at the rank of

## MULTIPLE FACULTY POSITIONS IN ELECTRICAL ENGINEERING Oregon State University

Assistant Professor, but exceptionally qualified candidates may be considered for Associate or Full Professorship. Applicants must hold a Ph.D. or an equivalent degree in Electrical and Computer Engineering or a closely related discipline by the expected start date of Fall 2022.

Successful applicants will demonstrate capability for building a strong research program that complements existing expertise in the School of EECS and enhances scope for collaborative and multidisciplinary projects with the Collaborative Robotics and Intelligent Systems Institute; the College of Earth, Ocean and Atmospheric Sciences; the Hatfield Marine Science Center; and the Oregon Health and Science University, among other organizations. Successful applicants will also demonstrate passion for and excellence in teaching and mentoring, with a strong commitment to promoting inclusion and equity for learners from diverse groups. The applicants are expected to be able to teach undergraduate and graduate-level courses in electrical and computer engineering in different modalities as required.

The School of EECS has over 100 faculty members (of which 64 are tenured or on tenure track) and more than 3900 undergraduate and 450 graduate students. Numerous national awards attest to the scholarly accomplishments and distinction of the faculty: 2 inductees in the National Academy of Engineering, 23 professional society fellows and 27 winners of prestigious early-career investigator awards. Students and faculty members have access to extensive shared-use equipment including for fabrication and characterization of electronic materials and devices housed in the Materials Synthesis and Characterization Facility. Opportunities for collaboration with industry partners in Oregon's silicon forest and the Pacific Northwest National Laboratory also abound.

Oregon State University (OSU) is located in Corvallis, a welcoming, multicultural college town of about 60,000. Corvallis is ranked among the top ten places to live in the U.S. and is within a two-hour reach of an international airport (in Portland, Oregon).

Applications may be submitted online at <https://jobs.oregonstate.edu/postings/110708> (posting #P05040UF) with the following six documents: (1) letter of interest; (2) vita; (3) two-page statement of research interests; (4) one-page statement of teaching interests; (5) one-page statement on the candidate's experiences with and plans to support equity and inclusion; and (6) names and contact information for at least three references. For full consideration, complete applications must be received by January 14, 2022. The posting will remain open until March 15, 2022. We encourage candidates to apply early.

OSU is an Affirmative Action/Equal Opportunity employer and committed to continuing to build and support a diverse and inclusive community of faculty, students and staff. The university actively supports dual-career opportunities. The College of Engineering is third amongst tier one public universities for the percentage of women faculty members in its ranks. We particularly encourage women, members of historically underrepresented racial/ethnic groups, individuals with disabilities, veterans, LGBTQ community members, and others who share our vision of an inclusive community to apply.
