The Technion - Israel Institute of Technology academically manages a new university established in Shantou City, Guangdong Province, China called the Guangdong - Technion Israel Institute of Technology (GTIIT) <http://www.gtiit.edu.cn/en>.

GTIIT, following the philosophy of the Technion in Haifa, is fully committed to excellence in science and technology, both in research and education. The language of instruction at GTIIT is English.

GTIIT has already launched undergraduate programs in: 1) Chemical Engineering; 2) Biotechnology & Food Engineering; 3) Materials Science & Engineering; 4) Mechanical Engineering; 5) Mathematics with Computer Science. Graduate programs are offered in all fields, in coordination with the Technion's Graduate School.

GTIIT is gathering top-notch researchers in all areas of fundamental and applied sciences to promote cutting-edge multidisciplinary biomedical research.

Tenure-track faculty positions at all ranks are now available for outstanding candidates, in the following areas:

- Chemical Engineering (especially for graduates of the discipline);
- Environmental Engineering;
- Biotechnology & Food Engineering;
- Materials Science & Engineering;
- Mechanical Engineering;
- Mathematics with Computer Science.

Based on their academic and scientific record and qualifications, successful candidates will be appointed at the level of Assistant, Associate or Full Professor through one of the GTIIT Academic Programs, and also will be associated to a specific research center where they will conduct their research activities.

Successful candidates will be offered world-competitive start-up packages, generous compensation, convenient housing and family care facilities in the beautiful and newly constructed campus.

Please send your CV, list of publications, research plan and teaching statements to the Search Committee at: gtiitrecruit@technion.ac.il
