Job Description	

Job Description Summary

The Department of Electrical and Computer Engineering at Auburn University invites applications for a tenure-track assistant professor in the area of electromagnetics, with an emphasis on computational techniques, beginning with the Spring 2024 semester. The individual selected for this position will be expected to secure research funding, collaborate with faculty on interdisciplinary research projects, and teach both undergraduate and graduate courses in the electromagnetics area.

Minimum Qualifications

Applicants must have a Ph.D. in Electrical and/or Computer Engineering or a closely related field at the time employment begins. The candidate selected for this position must be able to meet eligibility

requirements to work in the United States at the time appointment is scheduled to begin and continue working legally for the proposed term of employment. Excellent communication skills required.

Desired Qualifications

We particularly seek candidates who are eligible to participate in research activities involving controlled unclassified information and ITAR/EAR restrictions and possess or be able to obtain a security clearance.

In addition, the candidate should demonstrate the potential to 1) excel as a teacher in both undergraduate and graduate courses, 2) secure funding to support a research program, 3) mentor graduate students, and 4) publish research results in the appropriate scholarly outlets.

Special Instructions to Applicants

The position is available beginning January 1, 2024, and applications will be evaluated beginning on July 1, 2023. The search will continue until a suitable candidate is selected. Submit a cover letter addressing your qualifications for the position, curriculum vitae/resume, statement of teaching interests, statement of research interests including a proposed research plan, and the names of three references with contact information.
