- Software processes
- Agile project management
- DevOps/DataOps-centred project management
- Requirements and quality management
- Cost and risk management
- Software project performance measurement and evaluation
- Software portfolio management
- Artificial Intelligence (AI) and Data Analytics in the context of project management

Position Requirements

The successful candidate will demonstrate:

- A record of high-quality research and publications
- The potential to establish an externally funded research program, and to achieve international recognition within five years
- The alignment between their research interests and the research priorities of the Schulich School of Engineering and the University of Calgary
- The ability to attract and develop excellent trainees, students, and future researchers
- Ability to teach a range of undergraduate and graduate courses related to the topics in the position description above
- Excellent written and oral communication skills
- A commitment to Equity, Diversity, and Inclusion in Engineering

Candidates should be eligible for registration as a Professional Engineer with the Association of Professional Engineers and Geoscientists of Alberta (APEGA).

Experience working in industry or on industrial projects is considered an asset.

How to Apply

Interested candidates are encouraged to submit an application online via 'Apply Now' at the following link:

Applications are accepted until May 1, 2023

The University of Calgary has launched an institution-wide [Indigenous Strategy](#) in line with the foundational goals of [Eyes High](#), committing to creating a rich, vibrant, and culturally competent campus that welcomes and supports Indigenous Peoples, encourages Indigenous community partnerships, is inclusive of Indigenous perspectives in all that we do.

As an equitable and inclusive employer, the University of Calgary recognizes that a diverse staff/faculty benefits and enriches the work, learning and research experiences of the entire campus and greater community. We are committed to removing barriers that have been historically encountered by some people in our society. We strive to recruit individuals who will further enhance our diversity and will support their academic and professional success while they are here. In particular, we encourage members of the designated groups (women, Indigenous peoples, persons with disabilities, members of visible/racialized minorities, and diverse sexual orientation and gender identities) to apply. To ensure a fair and equitable assessment, we offer accommodation at any stage during the recruitment process to applicants with disabilities. Questions regarding [diversity] EDI at UCalgary can be sent to the [Office of Equity, Diversity and Inclusion](#) (equity@ucalgary.ca) and requests for accommodations can be sent to Human Resources (hrhire@ucalgary.ca).

All qualified candidates are encouraged to apply; however Canadians and permanent residents will be given priority. In this connection, at the time of your application, please answer the following question:

Are you a Canadian citizen or a permanent resident of Canada? (Yes/No)

Additional Information

About the Schulich School of Engineering

The Schulich School of Engineering recognizes that candidates have varying career paths and that career interruptions can be part of an excellent academic record. Candidates are encouraged but not required to provide any relevant information about their experience and/or career interruptions to allow for a fair assessment of their application. Selection committees have been instructed to give careful consideration to, and be sensitive to the impact of career interruptions, when assessing the candidate's research productivity.

The Department of Electrical and Software Engineering, in the Schulich School of Engineering, has over 50 faculty members and is teaching approximately 1400 undergraduate and 500 graduate students. We offer major undergraduate programs in Electrical Engineering and Software Engineering, with minors in Computer, Digital, Biomedical, Mechatronics, Aerospace and Environmental Engineering. The Schulich School of Engineering strategic plan, Schulich Momentum, identifies the vision of the school. As a community defined by energy, enterprise and excellence - both on our campus and beyond - we will be recognized for enhancing our global research impact and driving innovation, for expanding access to and inclusivity in engineering, for our contributions towards Truth and Reconciliation, and for enriching student success and experience. The Schulich School of Engineering is a key contributor the University of Calgary Growth Through Focus plan, which emphasizes transdisciplinary scholarship, deeper community integration, and future-focused program delivery.

To learn more about academic opportunities at the University of Calgary and all we have to offer, view our [Academic Careers website](#). For more information visit [Careers in the Schulich School of Engineering](#).

The University strongly recommends all faculty and staff are fully vaccinated against COVID-19.

About the University of Calgary

The University of Calgary is Canada's leading next-generation university – a living, growing and youthful institution that embraces change and opportunity with a can-do attitude. Located in the nation's most enterprising city, the university is making tremendous progress on its Eyes High journey to be recognized as one of Canada's top five research universities, grounded in innovative learning and teaching and fully integrated with the community it both serves and leads.
