experiential learning. The University is recognized for its student-centered learning and state-of-the-art facilities. Our faculty are committed to delivering pedagogically-sound learning experiences with incorporation of innovative technological interventions, to further enhance students' skills and help develop talented graduates that can effectively contribute to a knowledge-based economy and make Qatar's National Vision 2030 a reality.

The College of Engineering and Technology invites applications for position of Mechanical Trainer / Plumbing Workshop Instructor.

### **Your commitment**

Reporting to the Department Head of Industrial Trades, the successful candidate will be responsible for the delivery and evaluation of a broad range of courses within the Industrial Trades programs. S/he will evaluate student progress and manage the resources of the learning environment. The successful candidate will be responsible for the inventory, monitoring, and maintaining of workshop and laboratory equipment within the specified program area. They will work with other instructors, faculty and staff as required to provide an exceptional learning experience for the trainees and students. All employees are expected to contribute to professional and community life within the College and beyond.

You will keep course portfolio documents required for program review and accreditation processes and engage in instructional development as well as new program development. The College encourages applications from research-active faculty who will also contribute to the enhancement of applied research and innovation.

### **Qualifications**

Faculty members will be placed in the appropriate rank based on their education and experience. The broad criteria is provided below.

For Workshop Instructor

- A Bachelor's Degree in mechanical engineering
- Journeyman plumbing certification (completion of a structured multiple-year apprenticeship program within the discipline)

### Experience

- A minimum of seven (7) years full-time working experience in the field of plumbing.
- Demonstrated ability to use a variety of educational technologies and platforms.
- Demonstrated academic and information literacy skills.
- Demonstrated experience leading complex projects.

### Other Required Skills

- Understanding of trade apprenticeship and on-the-job training programs
- Commitment to applied and experiential learning as a pedagogy and a key feature of the University's mandate
- Ability to design, develop, deliver, and evaluate authentic learning experiences and assessments incorporating contemporary tools and resources to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in program outcomes.
- Digital literacy and demonstrated fluency in technology systems, and an ability to model and facilitate use of current and emerging digital tools to support research and learning
- Commitment to the effectiveness, vitality, and self-renewal of the teaching profession through self-driven continuous professional development and life-long learning
- Effective oral and written communication skills

### How to Apply

Applications should be submitted via our online application portal by clicking on Apply Now.

You must meet all essential qualifications in order to be appointed to the position. Other qualifications may be a deciding factor in choosing the person to be appointed. Some essential and other qualifications will be assessed through your application, which may include (but need not be limited to) curricula vitae, cover letters, references, teaching dossiers, and sample publications. It is your responsibility to provide appropriate examples that illustrate how you meet each qualification. Failing to do so could result in your application being rejected. Applicants must apply online.

We thank all those who apply. Only those selected for further consideration will be contacted.
