and educational program in: Systems engineering and/or space systems engineering (including complex engineering systems, operations research, AI/ML, cyber-physical systems and their underlying enabling and embedded technologies) and Software engineering and design (including cybersecurity, emergency behavior, machine learning, artificial intelligence and data engineering).

Job Duties

Faculty duties include teaching at the undergraduate and graduate levels, advising and mentoring graduate students, conducting externally-funded research, as well as contributing to service to Stevens and to the professional community. Candidates will be expected to become leaders in their field of research, to develop a vibrant externally-funded research program, and to contribute to best-in-class educational programs.

Basic Qualifications

Applicants must possess a doctoral degree in a related engineering or science discipline prior to commencement of employment. **To apply, please submit your package as a single PDF file that contains your curriculum vita, cover letter, research statement, teaching statement, and contact information for 3 references online at [Stevens/SSE Career Opportunities](#).** If you have any questions, please direct your inquiries to Dr. Amro M. Farid at amro.farid@stevens.edu. Review of applications will commence immediately and continue until the position is filled.
