Prof. Mehmet Kurt's research group at the University of Washington (Kurtlab) is recruiting a postdoctoral scholar in the field of applications of artificial intelligence in brain imaging, with a tentative start date in Summer'24. Our research program at Kurtlab combines motion-sensitive MRI-based neuroimaging techniques with machine learning and computational methods to study the human brain, with direct clinical applications in traumatic brain injury (TBI), Alzheimer's Disease, Chiari Malformation I, and intracranial aneurysms. Our research program is funded through multiple grants from NSF, NIH and DoD, and has been highlighted in national and international media.

Interested candidates should contact me at mkurt@uw.edu with their CVs.
