**Job Description**

The Frank Reidy Research Center for Bioelectrics (FRRRCBE) at Old Dominion University (ODU) invites applicants for a **Research Assistant Professor**. This is a 10-month non-tenure appointment. The successful candidate will perform cutting-edge experimental biomedical research in a broader area relevant to bioelectrics, report results at scientific forums, publish in peer-reviewed journals, compete for extramural grant funding, and actively collaborate with colleagues at FRRRCBE and beyond.

The FRRRCBE pioneers basic and applied research in the interaction of electric fields and ionized gases with biological systems. Its mission spans advancing scientific knowledge in biotechnology, medical diagnostics, therapeutics, and environmental applications. The Center emphasizes cutting-edge interdisciplinary research, collaboration, and the recruitment of top-tier faculty and students. Integral to its mission, FRRRCBE actively supports various research and educational initiatives at Old Dominion University and drives the commercialization of bioelectrics technologies.
