**Apply By Email**

**Job Description**

The [Department of Materials Design & Innovation](#) seeks applicants for a tenure track faculty position focused on Structural Materials, especially microstructural/defect level understanding of mechanical behavior of materials. Research expertise in one or more of experimental techniques including ion beam/electron microscopy/atom prob tomography would be advantageous.

We are looking for candidates to join a dynamic, interdisciplinary faculty team operating at the convergence of materials science and information science. Successful candidates are expected to work effectively in a novel team environment and integrate well into MDI's innovative teaching and research program.
