reputable independent research program in Aerospace Propulsion. In this general area, we are particularly interested in areas such as hybrid and electric propulsion systems, biofuel and green chemical propulsion innovations, as well as advanced plasma dynamics aiming to minimize environmental impact while maximizing efficiency for future air and space travel. Other sub-areas of expertise within the general area will also be considered. The successful candidate will develop and lead a sustainable, innovative, independent research program, will publish impactful research in top-ranked, field-related refereed journals, and will build reputation nationally and internationally to elevate UAEU's international reputation. The successful candidate will have strong commitment to undergraduate and graduate teaching and education, including but are not limited to, developing courses enhance our undergraduate and graduate programs, mentoring students. Successful candidates will have access to advanced laboratory facilities, opportunities for internal research funding, and collaboration with Centers of Excellence. UAEU is renowned for its commitment to academic excellence and research innovation. The application package should include a cover letter, a detailed resume, statements of current and future research, and teaching philosophies. The start date for this position is August 2024/January 2025. English is the language of instruction and communication. Screening of applications will continue until the position is filled.

### **Minimum Qualification**

Ph.D. in Aerospace Engineering or a closely related field from an internationally recognized university at the time of appointment or shortly thereafter. Research track-record commensurate with the rank applied for. The ability to teach undergraduate and graduate courses is a must.

### **Preferred Qualification**

B.Sc./B.Eng. degree in Aerospace Engineering preferred. Industrial and professional experience is a plus. Expertise in Aerospace Propulsion. In this general area, we are particularly interested in hybrid and electric propulsion systems, biofuel and green chemical propulsion innovations, as well as advanced plasma dynamics.

### **Rank/Experience/Skill Set**

**Assistant Professor/Associate Professor/Full Professor in
