Job Description

Florida International University is a top public university that drives real talent and innovation in Miami and globally. Very high research (R1) activity and high social mobility come together at FIU to uplift and accelerate learner success in a global city by focusing in the areas of environment, health, innovation, and justice. Today, FIU has two campuses and multiple centers. FIU serves a diverse student body of more than 56,000 and 290,000 Panther alumni. U.S. News and World Report places dozens of FIU programs among the best in the nation, including international business at No. 2. Washington Monthly Magazine ranks FIU among the top 20 public universities contributing to the public good.

Open Rank - Tenured/Tenure-Track Faculty in Construction Management

The Moss Department of Construction Management at Florida International University, Miami, Florida, invites applications for a tenured/tenure-track open-rank (all ranks) positions, with an anticipated start date in January 2025. The appointment will be made at the rank of Assistant, Associate or Full Professor, commensurate with the candidate's experience and qualifications. Qualified senior candidates may be considered for the tenured position. Candidates with expertise in all areas of construction engineering and management, including advanced construction technologies, will be considered. The candidates must have an earned doctoral degree in Construction Engineering, Civil Engineering, Architecture, or a closely related discipline. Evidence of research and scholarship appropriate to the rank applied to is required. Industrial experience and/or experience of collaboration with industry partners is a plus. The successful candidate will be expected to establish a strong externally funded research program in their area of expertise and teach at both the undergraduate and graduate levels and supervise graduate students. The successful candidate is also expected to develop collaborations with faculty across the Department, School, College, and University.

Moss Department of Construction Management houses Moss & Associates Built Environment Informatics Laboratory (Moss & Associates BEIL), Trimble Technology Lab, Construction Process Laboratory, and the MEP (Mechanical, Electrical and Plumbing) Studio. Other available facilities within the College of Engineering and Computing include the Wall of Wind, the Applied Robotics Laboratory, and Titan America Structures Lab. The department offers an accredited baccalaureate program with over 400 students and a Master's program including a fully online Master's program with over 100 students. The university is strategically located in one of the largest construction markets in the United States, with the opportunity for faculty involvement with major construction firms and organizations. The school enjoys tremendous support from the local construction industry. For further information about the department, please visit cm.fiu.edu.

Qualified candidates are encouraged to apply to Job Opening ID532015 at <https://facultycareers.fiu.edu/> and attach cover letter, curriculum vitae, statement of research and teaching philosophy. Candidates will be requested to provide names and contact information for at least three references who will be contacted as determined by the search committee. Applications will be accepted until the position is filled.
