Job Description	

Graduate Student Opportunity
Georgia Institute of Technology

I am looking for two graduate students to join my lab and pursue a Master of Science in Electrical and Computer Engineering. The research work focuses on using computational chemistry tools to evaluate natural-based materials for pharmaceutical applications. The position comes with a full scholarship.

Students with a prior knowledge of using molecular docking and molecular dynamic (MD) simulation tools such as Gaussian, Schrödinger, AutoDock, Gromacs, LAMMPS, GENESI, NAMDS, etc. are

highly encouraged to apply.
