Posted May 3, 2024, set to expire Sep. 2, 2024

seeking a candidate for a Postdoctoral Fellow position. Research interests and expertise in modeling and data analyses of hydrologic processes.

Successful candidates will hold a terminal degree in Civil or Environmental Engineering or a related field and demonstrate a record of academic achievement in research. The College and/or the Civil, Construction, and Environmental Engineering Department will establish a series of structured merit-based evaluations. Initial appointments are for one year, with renewal contingent upon demonstration of research productivity.

This Postdoctoral Fellow will be expected to conduct research in the general area of hydrology. The candidate will work on the evaluation and development of the next-generation (eco)hydrologic models, and produce novel scientific insights regarding hydrologic responses and their controls during climate extremes.

Candidates will need to have completed their Ph.D. or have it completed by the start of employment.

### **EEO/AA Policy**

The University of Alabama is an Equal Employment/Equal Educational Opportunity Institution. All qualified applicants will receive consideration for employment or volunteer status without regard to race, color, religion, national origin, sex, sexual orientation, gender identity, gender expression, pregnancy, age, genetic or family medical history information, disability, protected veteran status, or any other legally protected basis, and will not be discriminated against because of their protected status. Applicants and employees of this institution are protected under Federal law from discrimination on several bases.
