The School of Civil and Environmental Engineering (CEE), which is under the College of Engineering, aspires to be a leading school for Sustainable Urban Systems. Currently, it has over 50 faculty members and more than 1,500 students and is rapidly expanding its range of educational and research activities. Its faculty has led major university-wide strategic research thrusts in space creation, water research and sustainable built environment. Moving forward, CEE is addressing critical problems in urban systems such as building structures and energy systems, sustainability of urban cities, and resiliency to natural and unnatural risks.

To fuel further development, we invite applications for a Lecturer position in **Structural Engineering**.

The specific requirements for the position are as follows. Suitable candidates would need to have a PhD degree in Structural Engineering, with expertise in the areas such as d Suitable candidates should have at least 3–5 years of university and are able to teach finite element methods, , , determinate and indeterminate and structural steel and concrete design at both the undergraduate and graduate levels. Evidence of scholarship in the form of good quality shall be an advantage.

Application Procedures

Applicants are invited to submit their applications (*cover letter, detailed CV including teaching and research statements, publication list, citation report, and/or any other documents that demonstrate your qualifications and credentials*) through the [NTU Workday career portal](#).

Application remains open until the position is filled. Only short-listed candidates will be notified.
