Job Description

Job Description

The Biomedical Engineering department at Stevens Institute of Technology is seeking qualified applicants for part-time adjunct teaching and course development assignments for BME 512-BME 513, Physiology Lab 1 and Lab 2 course development.

The focus of this laboratory course consists of topic and experiments in Physiology (experiment/topic). These experiments are designed to demonstrate principles discussed in the lectures as well as introduce and familiarize students with basic principles and methods used widely in biomedical engineering to study physiology of the human body. The course will be in course development over Summer 2024.

Applicant Education/Professional Requirements: PhD preferred, Masters degree required in
