Downloaded On: Nov. 22, 2024 5:02am

Posted May 30, 2024, set to expire Apr. 1, 2025

The School of Electrical and Electronic Engineering is seeking to hire a talented Research Fellow in natural language processing and large language models to work with a team from multiple disciplines of machine learning and artificial intelligence to develop multimodal large language models with capabilities such as conversational information retrieval, multimodality sensemaking, question answering and chain-of-thoughts.

The Research Fellow will work on a project to conduct research on the development of multimodal large language models.

### **Key Responsibilities:**

- Develop retrieval-augmented generation (RAG).
- Develop a workable prototype system with capabilities such as conversational information retrieval, multimodal sense making, question answering, and chain-of-thoughts.
- Publish papers in top tier conferences and journals
- Collaborate with team members and funding agency to ensure timely and quality deliverables.
- Co-supervise MSc and Final Year Project students involved in this project.

### **Job Requirements:**

- PhD in Computer Science, or related field.
-
