Job Description

Dynamic Systems and Intelligent Machines (DSIM) Lab at the San Diego State University has an open PhD position in the area of control of robotic systems. Highly motivated applicants with extensive experience in control and robotics and strong background in mathematics are encouraged to apply. Applicants should have B.Sc. and M.Sc. degrees in Mechanical Engineering or Electrical Engineering.

For qualified PhD candidate, the stipend and tuition will be provided. Continuation of financial support is contingent upon satisfactory academic/research performance and availability of funds.

If interested, please contact Dr. Nili (zniliahmabadadi@sdsu.edu). Applicants should also submit CV, publications/examples of academic writing (report, thesis), BS and MS transcripts, GRE (recommended), and TOEFL/IELTS scores (if applicable) in a single PDF file. Cover letters should address experience in control and robotics. Incomplete applications will not be reviewed.

The PhD degree is offered jointly with the University of California, San Diego (UCSD). For more information about the DSIM lab, PhD program, and admission requirements, please visit:
