Job Description	

Research Opportunity

Computer Vision on Medical Imaging

Work description

The European project AI4LUNGS (AI-based personalised care for respiratory disease using multi-modal data in patient stratification) has the goal to develop computational models based in Artificial Intelligence to optimize the diagnosis and treatment of pulmonary disease.

INESC TEC | Research Grant (AE2024-0260)
INESC TEC

The workplan will focus on the aspect of detection and characterization of radiological findings related to each of the respiratory diseases targeted by the project.

Academic Qualifications

- Masters Degree in Biomedical Engineering, Informatics Engineering, Eletrotechnical Engineering, Computer Science, or related;

Minimum profile required

- Masters grade point average equal to or greater than 14/20;
- Experience in deep learning applications;
- Experience in computer vision in medical imaging applications

Maintenance stipend: € 1259,64, according to the table of monthly maintenance stipend for FCT grants , paid via bank transfer. Grant holders may be awarded potential supplements, according to a quarterly evaluation process (Articles 19, 21 and 22 of the Regulations for Grants of INESC TEC and Annex II), up to a maximum limit of 50% of the monthly maintenance stipend.

INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under the terms established in the internal document: "Payment of Tuition fees to grant holders". The grant holder will benefit from health insurance, supported by INESC TEC.

Application Period

Since 11 Jul 2024 to 26 Jul 2024

Centre

Biomedical Engineering Research

Scientific Advisor

João Manuel Pedrosa

What we offer

- **Multicultural and collaborative environment**
- A multicultural, international and collaborative environment that makes it easier to exchange

ideas, work in networks and create synergies.

- **International projects**
- The possibility of working in international projects with some of the most important companies in the field.
- **Mentoring**
- Mentoring with the best researchers in the fields of electrical and industrial engineering, bioengineering, information technology and physics.
- **Self Improvement**
- The possibility of participating in international conferences, workshops, seminars and vocational training.
- **Other Benefits and Perks**
- Flexible working time, health insurance, discounts in hotels, transportation, etc.
- **Informal Events**
- Annual informal events, such as the multicultural party.
