- Full time
- Multiple roles - 2-years fixed term, 2-year convertible tenure track or continuing
- Location: Kensington – Sydney, Australia

The Opportunity

Join the School of Computer Science and Engineering (CSE) in the Faculty of Engineering as a Lecturer/Senior Lecturer in an Education Focussed role. CSE is currently undergoing a continued period of expansion and is recruiting for several new academic staff members to start in 2024 and 2025, with multiple opportunities available.

The purpose of these roles is to enable academics to specialise in education, devoting their time to delivering high-quality teaching and pursuing initiatives to enhance the educational experience of our students. Those who are appointed to this prestigious specialisation will be expected to successfully drive educational excellence within the university's teaching and learning communities.

There are several opportunities for Education Focussed roles, including but not limited to the areas below:

- Introductory programming and education
- Introductory software engineering at scale

This is an opportunity to join an organisation that is helping to shape the future direction of computing in Australia. The students and research produced in CSE can impact the world!

The role of Lecturer/Senior (Education Focussed) reports to the Head of School and has no direct reports.

The School

The School of Computer Science and Engineering (CSE) in the Faculty of Engineering at UNSW is one of the largest Schools of its kind in Australia, with the greatest impact on society through our academic excellence in teaching, research, commercial engagement, and social engagement. The School is the

largest with the Faculty of Engineering with over 6500 students and 76 academic staff, which is growing with an operating budget of over \$32 million.

Our academic staff have research focus in areas including Artificial Intelligence, Biomedical Image Computing, Data and Knowledge, Embedded Systems, Networked Systems and Security, Human Centred Computing, Programming Languages and Compilers, Service Oriented Computing, Theoretical Computer Science and Trustworthy Systems.

CSE offers undergraduate programs in Software Engineering, Computer Engineering, Computer Science, and Bioinformatics, as well as a number of combined degrees with other disciplines. CSE attracts excellent students who have an outstanding record in international competitions. People join CSE for the opportunity to work with top-tier students and to join a community of scholars who support them in achieving their full potential. CSE attracts the brightest students as we offer the most technically challenging computing degrees in Australia. The challenges we present ensure our students reach their greatest potential and are ready to have a lasting impact on society.

Our school is located in the heart of Sydney and is Australia's largest centre for computationally driven business, design, and culture. This vibrant nexus brings together a diversity of creative engineering and design forces, where world-leading education allows our thousands of students and researchers to become world-leading and world-building innovators. CSE students take an active role in the creation of a vibrant student experience, with many student societies, and are actively involved in teaching and learning opportunities within the school. For further information about the School, please visit - <https://www.unsw.edu.au/engineering/our-schools/computer-science-and-engineering>

UNSW

UNSW isn't like other places you've worked. Yes, we're a large organisation with a diverse and talented community; a community doing extraordinary things. But what makes us different isn't only what we do, it's how we do it. Together, we are driven to be thoughtful, practical, and purposeful in all we do. If you want a career where you can thrive, be challenged, and do meaningful work, you're in the right place.

UNSW has three strategic priority areas. Firstly, a drive for academic excellence in research and education. Universities are often classified as 'research intensive' or 'teaching intensive'. UNSW is proud to be an exemplar of both. We are among a limited group of universities worldwide capable of delivering research excellence alongside the highest quality education on a large scale. Secondly, a passion for social engagement, which improves lives through advancing equality, diversity, open debate, and economic progress. Thirdly, a commitment to achieving global impact through sharing our

capability in research and education in the highest quality partnerships with institutions in both developed and emerging societies. We regard the interplay of academic excellence, social engagement, and global impact as the hallmarks of a great forward-looking 21st century university. To contribute to this journey, UNSW launched its first EDI Strategy in 2015 and became the first university in Australia to establish the Division of Equity and Diversity in 2017. The UNSW EDI strategy 2022-2025 can be found [here](#).

Skills & Experience

Lecturer (Level B)

- A PhD in a related discipline, and/or relevant work experience.
- Actively stays up to date with discipline knowledge and professional development.
- Demonstrated experience in teaching and learning design, development and delivery at undergraduate and/or postgraduate level.
- Experience using and/or designing with educational technologies and online delivery methods.
- Evidence of teaching effectiveness and passion for educational excellence (e.g. relevant discipline-based curriculum design and development at a variety of levels and scales).
- Demonstrated knowledge of industry or experience in work-integrated learning (desirable).
- Evidence of highly developed interpersonal and organisational skills.
- Evidence of ability to support and inspire students from diverse backgrounds and support student equity, diversity and inclusion initiatives.
- An understanding of and commitment to UNSW's aims, objectives and values in action, together with relevant policies and guidelines.
- Knowledge of health and safety responsibilities and commitment to attending relevant health and safety training.

Senior Lecturer (Level C)

- A PhD in a related discipline, and/or relevant work experience.
- Actively stays up to date with discipline knowledge and development.
- Demonstrated experience in teaching and learning design using a range of pedagogical approaches, development and delivery of courses and programs, at undergraduate and/or postgraduate level.
- Experience in implementing educational technologies and online delivery methods.
- Evidence of teaching effectiveness and passion for educational excellence and fostering this in others.
