interdisciplinary school formed by integrating the School of Chemical and Biomedical Engineering (SCBE) from College of Engineering and the Division of Chemistry and Biological Chemistry (CBC) from College of Science. CCEB faculty members conduct cutting-edge research in diverse areas of chemistry, chemical engineering, food science, bioengineering, biotechnology, and other fields.

We invite outstanding candidates to apply for a tenured faculty position at the Associate Professor level with a research focus in the area of Computation-Guided Molecular Engineering. Applicants should have a well-defined research vision and an outstanding track record of publications in top journals. Successful candidates are expected to develop innovative, internationally visible, and extramurally funded research programs. We are also seeking candidates with outstanding capacity to teach related topics at the undergraduate and graduate levels, including mentoring and supervision of undergraduate and graduate students. Some school and university services will be expected of the successful candidates.

CCEB seeks a diverse and inclusive workforce and are committed to equality of opportunity. Applicants, irrespective of age, race, gender, religion, marital status and family responsibilities, or disability, are encouraged to apply. Our recruitment process is entirely merit-based.

### **Requirements**

We seek expertise in computational molecular modelling, data science, and molecular design for healthcare applications. The ideal candidate will have a strong background in using computational techniques to understand and design molecular systems, with a focus on applications in chemical biology and biotechnology. This includes but is not limited to experience with quantum chemical calculations and data science for predictive modelling and molecular design. The candidate should be adept at applying these methods to solve complex problems in healthcare. Additionally, expertise in integrating computational data with experimental results to drive innovation is highly desirable.

### **Emoluments**

The commencing salary will depend on the candidates' qualifications, experience, and the level of appointment offered.
