Downloaded On: Nov. 24, 2024 3:34am

Posted Aug. 14, 2024, set to expire Dec. 16, 2024

The Department of Mechanical and Aerospace Engineering (MAE) at Princeton University invites applications for a tenured Associate or Full Professor in aerospace engineering and sciences. We welcome applications addressing grand challenges in aerospace that build new synergies or establish new directions, especially in emerging space-related research areas. Applicants must hold a Ph.D. in engineering or a related subject in the sciences and mathematics and have a demonstrated record of excellence in research.

We seek faculty members who will contribute to our community by embracing excellence and diversity, with a strong commitment to teaching and mentoring. We strongly encourage applications from members of groups historically underrepresented in mechanical and aerospace engineering. We seek creative and enthusiastic candidates with the background and skills who can bridge the disciplines and research initiatives in MAE, the School of Engineering and Applied Science and the University beyond. To ensure full consideration, applications should be received by January 15, 2025.

Applicants should submit a curriculum vitae, including a list of publications and presentations, a 3-5 page summary of research accomplishments and future plans, a 1-2 page teaching statement, a 1-2 page summary of leadership experience, and contact information for three references online at <https://www.princeton.edu/acad-positions/position/35902>.

EEO/AA Policy

Princeton University is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law. This position is subject to the University's background check policy.
