Job Description	

Faculty Positions in Computer Science and Mechanical Engineering

School of Computing and Engineering
Quinnipiac University

Overview:
The School of Computing and Engineering at Quinnipiac University invites applications for two full-

Faculty Positions in Computer Science and Mechanical Engineering
Quinnipiac University

time, tenure-track Assistant Professor positions in the fields of Computer Science and Mechanical Engineering. These positions are available for a start in Spring or Fall 2025. The School of Computing and Engineering at Quinnipiac University prides itself in its excellence in education. Evidence of this excellence can be seen in everything from student success in obtaining high-quality internships and full-time positions, to the number of faculty members in the School who have earned University-wide awards for excellence in teaching. With the recent growth of our MS in Cybersecurity and our undergraduate computing degrees, and the introduction of an MS in Computer Science this last year, we are also seeing increased interest and institutional support in scholarship and grant-writing. This will be an important additional avenue for us to further our mission.

Position 1: Assistant Professor of Computer Science
We are seeking candidates with a passion for teaching and a strong research agenda to join the faculty in a **full-time tenure-track position in Computer Science at the Assistant Professor level starting Fall of 2025. The position is also available for candidates who can start in the Spring of 2025.** Although candidates with expertise in all areas of Computer Science will be considered, those with research and teaching interest in game development and programming are highly encouraged to apply.

Position 1 Education Requirements:
A PhD in Computer Science, or a closely related field is required before the start of the position

Position 1 Qualifications:

- Strong interpersonal skills, including the ability to collaborate and effectively communicate with faculty, staff, and students
- Knowledge of current trends and practices in the field
- Commitment to contribute to the diversity and excellence of the academic community
- Preference will be given to applicants with interest and abilities to teach courses in game development and programming, along with other Computer Science courses

Position 2: Assistant Professor of Mechanical Engineering
We are seeking candidates with a passion for teaching and a strong research agenda to join the faculty in a **full-time tenure-track position in Mechanical Engineering at the Assistant Professor level starting Fall of 2025. The position is also available for candidates who can start in the Spring of 2025.** Although candidates with expertise in all areas of Mechanical Engineering will be considered, those whose teaching and research interests in robotics and mechatronics are highly encouraged to apply.

Position 2 Education Requirements:
A PhD in Mechanical Engineering, or a closely related field, is required before the start of the position

Position 2 Qualifications:

- Strong interpersonal skills, including the ability to collaborate and effectively communicate with faculty, staff, and students
- Knowledge of current trends and practices in the field
- Commitment to contribute to the diversity and excellence of the academic community
- Preference will be given to applicants with interest and abilities to teach courses in robotics and mechatronics, along with other Mechanical Engineering courses

About the School:
The School of Computing and Engineering became the ninth school at Quinnipiac University on July 1, 2016. The school offers BS and BA degrees in computer science; BS degrees in civil, industrial, mechanical and software engineering; and MS degrees in computer science and cybersecurity. All BS degrees are ABET accredited. Housed in the renovated Communications, Computing, and Engineering building, the school features newly constructed and outfitted laboratories and classrooms. Dedicated to providing the best possible learning experience for our students, the school focuses on high-quality instruction, and offers hands-on training, applied learning opportunities and meaningful student-faculty relationships.

About Quinnipiac:
Quinnipiac is a private, coeducational, nonsectarian institution located 90 minutes north of New York City and two hours from Boston. The university enrolls more than 9,500 students in 110 degree programs through its Schools of Business, Communications, Education, Computing and Engineering, Health Sciences, Law, Medicine, Nursing, and the College of Arts and Sciences. Quinnipiac is recognized by U.S. News & World Report as both a best-value school and a top national university and has also earned recognition in Princeton Review's "The Best 387 Colleges." Quinnipiac has been named a "Great College to Work For" as determined by a comprehensive industry survey. For more information, please visit qu.edu. Connect with Quinnipiac on Facebook and follow Quinnipiac on Instagram @QuinnipiacU.

Responsibilities for Both Positions:

- Teaching courses in several areas and at all levels of mechanical engineering and computer science.

Faculty Positions in Computer Science and Mechanical Engineering
Quinnipiac University

- Guiding, advising, and mentoring students
- Establishment of a scholarship agenda. Examples of scholarship can include a variety of conference papers, journal articles, grant writings, and student-mentored research
- Engagement in university and community service appropriate to interests

Application Instructions:

To apply for either position, please submit:

- A CV
- A Cover Letter specifying which position(s) you are applying for
- Statement of Contribution to Diversity, Equity, and Inclusion
- Statement of Teaching Philosophy and teaching evaluations (if available)
- Statement of Scholarship/Research Efforts and Plans
- List of References

Review of applications will begin on September 23, 2024, and will continue until the positions are filled.

Quinnipiac University is an Equal Opportunity Employer, with a strong commitment to the principles of diversity and inclusion. We offer a comprehensive benefits package for full-time faculty, including tuition remission, within a culture that values excellence and inclusivity.
