Job Description

The Department of Biomedical Engineering (BME) at Michigan Technological University (Michigan Tech) invites applications and nominations for a faculty position at the instructional track, assistant teaching professor level. Michigan Tech BME is searching for outstanding candidates who can add to the existing research and teaching strengths in multiple areas.

It is required that applicants have earned a doctorate in biomedical engineering or a related field. It is also required that the applicants teach undergraduate core courses in experimental laboratory techniques, biomaterials, and/or biomechanics, or other BME core courses, as well as help supervise senior design projects. Please read the full job description requirements and apply [here](#). Application materials submitted through other websites will not be reviewed. You must apply on Michigan Tech's employment website to be considered for the position. Submit your application materials for this position using the following URL:
