applications. Additionally, a candidate whose research in this field complements the department's existing strengths in Tissue Engineering, Cellular Engineering, Neuroengineering, Biomechanics, Biomedical Imaging and Optics, and Medical Micro technologies would be of particular interest. The candidate's research should have clear implications for improving human health. The ideal candidate will be interested in collaborative work with existing centers and faculty in the Department of Biomedical Engineering and throughout campus.

The Department of Biomedical Engineering advances the mission of the College of Engineering to foster a respectful, diverse, equitable and inclusive environment.

Responsibilities:

Developing an innovative research program in AI/ML driven cellular engineering approaches; teaching and developing undergraduate and graduate courses in Biomedical Engineering, to foster the learning of a diverse student population; mentoring graduate students and supervising their research; participating in departmental and university faculty governance; participating in outreach and service in industry and government; and contributing to professional and public services.

Institutional Statement on Diversity:

Diversity is a source of strength, creativity, and innovation for UW-Madison. We value the contributions of each person and respect the profound ways their identity, culture, background, experience, status, abilities, and opinion enrich the university community. We commit ourselves to the pursuit of excellence in teaching, research, outreach, and diversity as inextricably linked goals.

The University of Wisconsin-Madison fulfills its public mission by creating a welcoming and inclusive community for people from every background - people who as students, faculty, and staff serve Wisconsin and the world.

For more information on diversity and inclusion on campus, please visit: [Diversity and Inclusion](#)

Required

PhD

Biomedical Engineering, Mechanical Engineering, Chemical Engineering, Biological Sciences, Physical Sciences or related field, with demonstrated excellence in research and teaching appropriate for the appointment level.

Qualifications:

Candidate will have a demonstrated record of academic achievement such as peer-reviewed publications and grant awards appropriate for the appointment level, exceptional potential in establishing a world-class research program in AI/ML approaches to cellular engineering, and a commitment to high-quality and inclusive undergraduate and graduate teaching, learning and mentoring. Associate and Full professor candidates must possess experience and scholarly credentials that meet the tenure standards of the UW-Madison Divisional Committee and of the College of Engineering.

Work Type:

Full Time: 100%

It is anticipated this position requires work be performed in-person, onsite, at a designated campus work location.

Appointment Type, Duration:

Ongoing/Renewable

Anticipated Begin Date:

AUGUST 18, 2025

Salary:

Minimum \$114,000 ACADEMIC (9 months)

Depending on Qualifications

The Department of Biomedical Engineering in the College of Engineering at UW-Madison enrolls approximately 650 undergraduate students and 120 MS and PhD students from all over the world. The Department has 24 Primary Faculty, 62 Affiliate Faculty, 5 Teaching Faculty, 3 Emeritus Faculty, and 16 Staff, with state expenditures exceeding \$2.5 million annually and research expenditures exceeding \$10 million annually. The University of Wisconsin-Madison has a long history of interdisciplinary collaboration between departments and colleges as well as a strong commitment to promoting diversity and engaging in inclusive practices in our learning and research environments. A faculty member recruited in this specialty area will have the opportunity to closely collaborate with clinical and basic science faculty in College of Engineering, the School of Medicine and Public Health, the School of Pharmacy, the School of Nursing, School of Veterinary Medicine, as well as from multiple research centers at UW-Madison, including the Carbone Cancer Center, Stem Cell and Regenerative Medicine Center, Cardiovascular Research Center, and McPherson Eye Institute.

The department plans to hire one position.

How to Apply:

Please apply directly to website by clicking on "Apply Now." Upload a SINGLE PDF document containing a cover letter, a detailed curriculum vitae (CV) including a complete list of publications, and names and contact information of three references. Applicants should also include a maximum three-page research statement and a one-page teaching statement describing how the applicant's research and teaching goals fit the solicitation described above.

The deadline for assuring full consideration is November 8, 2024. However, these positions will remain open, and applications may be considered until these positions are filled.

Employment will require an institutional reference check regarding any misconduct. To be considered, applicants must upload a signed 'Authorization to Release Information' form as part of the application. The authorization form and a definition of 'misconduct' can be found here:

<https://hr.wisc.edu/institutional-reference-check/>
