**Job Description**

The Auburn University Department of Chemical Engineering invites applications for multiple tenure-track faculty positions with an anticipated start date of August 2025. Although the areas of expertise are open, priority will be given to candidates in catalysis, computational catalysis, and process systems engineering areas with a sustainability focus. The individuals selected for these positions will be expected to contribute to the growth of at least one of the department's strategic focus areas: energy and environment, advanced materials, computer-aided chemical engineering, and pharmaceutical/biomedical engineering. While our primary focus is hiring at the Assistant Professor level, appointment of Associate or Full Professor rank is possible commensurate with experience and qualifications.

### **Minimum Qualifications**

Applicants must have a PhD in Chemical Engineering or a closely related field at the time employment begins. The candidates selected for these positions must be able to meet eligibility requirements to work in the United States at the time appointments are scheduled to begin and continue working legally for the proposed term of employment. Ph.D (or terminal degree) is required at the time employment begins. Excellent communication skills and a high level of personal motivation are required.
