Job Description	

About the Job

The Department of Mechanical Engineering at the University of Minnesota Twin Cities (UMN ME) invites highly qualified applicants for multiple full-time, tenure-track positions. We welcome applications in all areas of mechanical engineering. In particular, those with expertise in one or more of the following general areas are highly encouraged to apply:

- Manufacturing and Materials Design
- Thermal Sciences and Fluid Mechanics

Successful candidates will complement our department's current expertise and grow strategic synergistic collaborations across the department and University. While we primarily seek candidates at the assistant professor level, senior-level appointments for qualified candidates will be considered.

Qualifications

Applicants must have an earned Ph.D. (or equivalent degree) in mechanical engineering or a closely related discipline by the date of appointment. A successful candidate is expected to have the potential to lead a high quality, innovative research program and to effectively teach graduate and undergraduate-level courses to a diverse group of engineering students. The candidate's research and teaching activities should enhance the department's teaching and research missions (<https://cse.umn.edu/me/about>).

UMN Mechanical Engineering is committed to fostering an inclusive environment where everyone can succeed. We encourage applications from a diverse community and groups that are underrepresented in mechanical engineering.

About the Department

UMN [Mechanical Engineering](#) provides high-quality student experiences founded on a research-integrated education, with learning opportunities that capitalize on the unique aspects of our department and state. Our research encompasses all areas of mechanical engineering and addresses societal challenges in the areas of energy transition, environment and sustainability, human health, next-generation manufacturing, and robotics and mobility.

The department is home to 47 faculty members, >300 graduate students, and >400 undergraduate students and is part of the [College of Science and Engineering](#), a highly interdisciplinary college comprised of 12 departments. The [University of Minnesota](#) is among the largest public research universities in the country, offering a multitude of opportunities for study and research. Located at the heart of one of the nation's most vibrant, diverse metropolitan communities, students on the campuses
