Job Description	

Dr. Hojat's research group in the **Mechanical Engineering Department** at the University of Memphis is seeking to hire a graduate student for Spring 2025. This position focuses on cutting-edge research in **metal additive manufacturing**, specifically involving in-situ monitoring and process optimization using state-of-the-art equipment.

Candidates with experience in two or more of the following areas—manufacturing, machine learning, image processing, or instrumentation/data acquisition systems—are encouraged to apply. The position offers a stipend, full tuition coverage, and health insurance.

Applicants must submit the following as a single PDF:

- CV
- Transcripts of B.S. and/or M.S. degrees
- Names and contact information of three references
