<b>Job Description</b>	

The School of Engineering at Murray State University is seeking a talented faculty member to support the engineering physics program. Responsibilities include teaching courses in the support of the EAC/ABET-accredited engineering physics program with tracks in mechanical, electrical, and aerospace engineering or other classes as assigned. The development of a sustainable research and creative activity program involving undergraduate engineering students is critical. This faculty will be expected to develop student-centered teaching skills including the use of modern classroom and course management technologies. Engagement in EAC/ABET accreditation is required. Other responsibilities

## Assistant/Associate Professor, Engineering Physics Murray State University
