applying to this particular posting should be intending to apply for a position at the rank of Assistant Professor. Applications from candidates with appropriate experience and a strong record of scholarly productivity and impact who would seek appointment at the rank of Associate or Full Professor are also encouraged to apply through related postings at those other positional levels. Candidates from under-represented groups in engineering are strongly encouraged to apply. Applicants should apply online at <https://careers.ua.edu/jobs/search/college-of-engineering>.

Candidates with research interests across all domains relevant to chemical and biological engineering are encouraged to apply. Candidates with particular research emphasis and interests in the areas of bio/metabolic engineering, biomaterials, computational biology, additive and advanced manufacturing, process control and systems engineering, sustainable polymers, and electrochemical engineering are of particular interest for one or more of these positions and thus are strongly encouraged to apply. The ChBE department and College are looking to both: (1) add faculty who will build upon existing strengths in the Department, College, and University and (2) add faculty who will expand the scope of research here within the department, College, and UA as a whole. (<https://che.eng.ua.edu/>).

The Department of Chemical and Biological Engineering and the College of Engineering consider teaching, research, and service as the three critical and complimentary portions of their overall mission. Candidates must demonstrate a clear potential to successfully develop, lead, and extramurally fund a highly productive research group with significant scholarly impact in a focus area with long term potential to further build upon the rapid rise and great success of the ChBE department and the UA College of Engineering. An ability to collaborate with existing faculty in the key focus areas both within the ChBE Department and the College of Engineering, as well as potential colleagues across the campus, is also highly desirable. The College of Engineering and the Department of Chemical and Biological Engineering also pride themselves on the outstanding educational experience provided to their students, and thus faculty candidates must demonstrate an ability to develop and teach classes at both the undergraduate and graduate level in the faculty member's area(s) of expertise as well as to teach courses that support the delivery and accreditation of the Department's core degree programs.

Visit UA's employment website at careers.ua.edu for more information and to apply. Requisition will be posted until filled, with an expected start date of August 16, 2025. The University of Alabama is an equal-opportunity employer (EOE) including an EOE of protected vets and individuals with disabilities.

EEO/AA Policy

The University of Alabama is an Equal Employment/Equal Educational Opportunity Institution. All qualified applicants will receive consideration for employment without regard to race, color, religion,
