electrical engineering courses.

Outstanding candidates in all areas of electromagnetics/electronics/optics will be considered. This includes but is not limited to

- Electromagnetic fields.
- Artificial intelligence/machine learning for electromagnetics/electronics/optics.
- Radio-frequency, mixed-signal analog and digital integrated circuits.

The Department of Electrical, Computer and Biomedical Engineering at the University of Rhode Island offers programs leading to the BS, MS, and PhD degrees. The interdisciplinary nature of our department will provide the new faculty member with opportunities to interact with a broad range of colleagues. Our new 180,000+ square foot engineering building provides an excellent environment for interdisciplinary research collaborations.
