Worcester Polytechnic Institute - WPI

JOB DESCRIPTION SUMMARY

The Electrical and Computer Engineering (ECE) department at Worcester Polytechnic Institute (WPI) seeks applicants for a tenure-track faculty position at the Assistant Professor level in the general areas of communications, networking, information theory, and federated learning. Responsibilities for this position include establishing an active externally funded research program, teaching undergraduate and graduate courses, and advising undergraduate and graduate projects in electrical and computer engineering.

WPI is passionate about creating an inclusive workplace that promotes and values diversity. We are looking for candidates who can support our commitment to equity, diversity, and inclusion.

JOB DESCRIPTION

The successful candidate is expected to develop and maintain an externally funded research program leading to national and international recognition, to teach electrical and computer engineering courses at both the undergraduate and graduate levels, to participate in WPI's signature project-based curriculum, and to contribute to the operation and promotion of the department, college, university, and the profession. Candidates must hold an earned Ph.D. in Electrical and Computer Engineering or related field prior to appointment at WPI. Preference will be given to candidates with a strong background in one or more of the areas of communications, networking, information theory, and federated learning. Exceptional candidates from other areas will also be considered.

WPI's reputation as a rigorous and innovative university rests on the shoulders of its faculty. A highly selective, private technological university and one of the nation's first, WPI believes that when great minds work together, great advances follow. At WPI the boundaries to multidisciplinary collaboration are low. Faculty members, students, and other partners work together on the real-world projects and purposeful research that are hallmarks of the WPI experience. We are most proud of a recent No. 1 ranking for "faculty who best combine research and teaching." (Wall Street Journal/Times Higher Ed, 2016). Located one hour west of Boston, the university's campus is in Worcester, Massachusetts, a thriving 21st century college city recognized as a growing hub of scientific and technological innovation.

Qualified applicants should submit (1) a curriculum vitae, (2) a statement of research interests, (3) a statement of teaching interests, (4) a statement of how the candidate will advance WPI's commitment to Diversity, Equity and Inclusion, and (5) contact information for at least four references. Review of applications will continue until the position is filled.
