Technological University invites applications for a tenure-track faculty position at the rank of Assistant Professor. We are seeking a scholar to develop a vibrant, externally-funded research program in the broad area of engineering geology for geohydrology. Applicants with experience and accomplishments commensurate with a higher rank may be considered for an appointment as Associate Professor or Professor. The successful candidate will have earned a doctorate in Geological Engineering, Hydrological Engineering, Civil Engineering, Environmental Engineering, or a closely related discipline at the time of employment. Specific research areas of interest may include, but are not limited to groundwater and contaminant hydrology, ground and surface water engineering, hydrodynamics modeling, surface or subsurface remediation, and geohazards. Successful candidates will demonstrate an interest in developing strong collaborative research and educational programs within GMES, with other programs within the university, with industry, and with local communities. Successful candidates will also be committed to teaching undergraduate and graduate courses in geological and mining engineering, and mentoring student research. Michigan Tech attracts world-class faculty and staff who enrich the educational experience of smart, motivated, and adventurous students. Applicants who are committed to promoting a sense of belonging and contributing to an equitable and inclusive learning environment for all are strongly encouraged to apply (www.mtu.edu/belonging).

About Michigan Technological University

Michigan Technological University, one of the four major research universities in the State of Michigan, is located in Michigan's Upper Peninsula adjacent to Lake Superior. The Houghton, MI community offers a small-town environment with outstanding four-season recreational opportunities. Michigan Tech is proud to be an ADVANCE Institution that has thrice received National Science Foundation support to increase diversity, inclusion, and the participation and advancement of women and underrepresented individuals in STEM. Michigan Tech is an Equal Opportunity Educational Institution/Equal Opportunity Employer that provides equal opportunity for all, including protected veterans and individuals with disabilities. The Geological and Mining Engineering and Sciences department offers four majors: Geological Engineering, Mining Engineering, Geology, and Applied Geophysics. Both our engineering programs are ABET accredited. We are one of the nine departments within the College of Engineering. For more information about the department, see <https://www.mtu.edu/geo/>.

Application Instructions

Review of applications will commence November 8, 2024. Candidates are encouraged to apply early; however, applications will continue to be accepted until the interview process begins. To apply, please submit the following materials: (a) Cover Letter; (b) Curriculum Vitae; (c) Research Statement; (d) Statement of Teaching Philosophy and Interests; and (e) List of at least three referees.
