to each of the respiratory diseases targeted by the project.

Academic Qualifications

Biomedical Engineering, Electrical Engineering or related areas

Minimum profile required

- Minimum 5 indexed peer-reviewed publications (SCOPUS).
- Knowledge of programming in Python and MATLAB.
- Previous experience in computer vision applications in medical imaging

Preference factors

Ability to work autonomously and in a team

Application Period

Since 10 Oct 2024 to 31 Oct 2024

Centre

Biomedical Engineering Research

Scientific Advisor

[Ana Maria Mendonça](#)

What we offer

- **Multicultural and collaborative environment**
- A multicultural, international and collaborative environment that makes it easier to exchange ideas, work in networks and create synergies.
- **International projects**
- The possibility of working in international projects with some of the most important companies in the field.
- **Mentoring**
- Mentoring with the best researchers in the fields of electrical and industrial engineering, bioengineering, information technology and physics.
- **Self Improvement**
- The possibility of participating in international conferences, workshops, seminars and vocational training.
- **Other Benefits and Perks**
- Flexible working time, health insurance, discounts in hotels, transportation, etc.
- **Informal Events**
- Annual informal events, such as the multicultural party.
