candidates must have a Ph.D. in Computer Science, Software Engineering, or a closely related field. They will also have a commitment to excellence in teaching, exhibit the potential to support an independent research agenda, and have effective communication and organization skills.

Selected candidates will be expected to initiate and carry out research and perform academic duties associated with our undergraduate and graduate programs. The primary responsibilities are teaching courses, developing an externally funded research program, and leading graduate and undergraduate students in research.

Baylor's ABET-accredited CSI program currently has 11 tenured/tenure-track faculty including the McCollum Family Chair in Data Science and 7 lecturer faculty members. The faculty are internationally recognized in research areas including software engineering, data science, bioinformatics, machine learning, cybersecurity, big data, and computer systems. The department is housed within the Hankamer Building and the Baylor Research and Innovation Collaborative (BRIC; see <https://bric.research.baylor.edu/>). The department offers BS (including a Software Engineering concentration), MS (both online and in-person), and PhD degrees in Computer Science. It also offers the BSI degree with majors in Bioinformatics, Data Science, and Cybersecurity. Current enrollment is over 400 undergraduate and 80 graduate students. Additional information regarding the department, including its mission, is available at <https://www.ecs.baylor.edu/research-departments/computer-science>

Located in Waco, Texas, Baylor University is the oldest college in Texas. With a population of around 21,000 students, Baylor is one of the top universities in the nation, having just been named an R1 institution by the Carnegie Classification in 2022. Baylor is also on the honor roll of the "Great Colleges to Work For" from The Chronicle of Higher Education, Baylor offers competitive salaries and benefits while giving faculty and staff the chance to live in one of the fastest-growing parts of the state. Our strategic plan guides the University as we continue to live up to Baylor's mission of educating men and women for worldwide leadership and service by integrating academic excellence and Christian commitment within a caring community.

Qualifications:

- A Ph.D. in Computer Science, Software Engineering, or a closely related field is required.
- Preference will be given to candidates with demonstrated excellence in research activities, publications, and teaching.
- Special consideration will be given to candidates who have demonstrated strong scholarship and have an established and active independent research agenda in software engineering or closely
