Job Description

The Zachry Department of Civil and Environmental Engineering in the College of Engineering at Texas A&M University is seeking applications for a full-time tenure-track faculty position at the assistant professor level with a 9-month, academic appointment, and the possibility of an additional summer appointment contingent upon need and availability of funds, beginning Fall 2025. We are particularly interested in candidates whose research areas include, but are not limited to, artificial intelligence and modeling, construction robotics, construction automation, digital twins for the built environment, smart safety systems, production systems and supply chains, modular construction, and the circular economy. We prioritize the innovative potential and research promise of candidates over their specific

sub-field within Construction Engineering and Management. We are looking for individuals who align with the Department's vision and are pushing the boundaries of their sub-field to enhance the sustainability and resilience of built environment. Candidates must hold a Ph.D. and demonstrate the capability to establish an independent research program. A strong dedication to both graduate and undergraduate education is essential, as well as the ability to engage in interdisciplinary research.

The successful applicant will be expected to teach at both undergraduate and graduate levels, mentor graduate students, lead a dynamic research team in advancing the field of Construction Engineering and Management, participate in all aspects of the department activities and serve the profession. Applicants are invited to consult the department website, http://engineering.tamu.edu/civil, to review our academic and research programs, including the vision and mission of the Department and the College of Engineering.

The Zachry Department of Civil & Environmental Engineering at Texas A&M is proud to be among the top civil and environmental engineering programs in the country, ranked 7th in undergraduate programs and 9th in graduate programs at public institutions. Texas A&M civil engineering graduates are highly recruited and widely regarded as among the most work-ready young engineers in the country. The department currently has 53 tenured and tenure-track faculty and 24 academic professional track faculty members. Our student population is comprised of over 850 undergraduate students (sophomore to senior level) and 370 graduate students. For more information on the department, please visit http://engineering.tamu.edu/civil.

Qualifications

Applicants must have an earned doctoral degree in civil engineering, or a closely related engineering or science discipline at the time of the appointment.

Application Instructions

Applicants should submit a cover letter, curriculum vitae, personal statement (to include philosophy and plans for research, teaching, and service, as applicable), and a list of four (4) contact references (including postal addresses, phone numbers, and email addresses) by applying for this specific position at apply.interfolio.com/154635. Full consideration will be given to applications received by December 31, 2024. Applications received after that date may be considered until position is filled. It is anticipated the appointment will begin fall 2025.
