The Department of Biomedical Engineering in the School and Engineering and Applied Science is pleased to invite applications for a tenured or tenure-track faculty position at Columbia University in the City of New York, starting on July 1, 2025. Candidates are sought in the broad area of Biomedical Imaging. A joint appointment with the Department of Radiology in Columbia University Irving Medical Center is also possible. Applications at all ranks, including Assistant Professor, Associate Professor, and Full Professor, will be considered.

The successful candidate is expected to advance their field by developing an original and leading externally funded research program, and contributing to the educational missions of the Department of Biomedical Engineering and, as appropriate, the Department of Radiology. Columbia offers a rich environment for multidisciplinary research and encourages collaborations with additional academic departments and units across Columbia University. This position seeks candidates who would develop biomedical engineering research in crosscutting fields. The ability to teach undergraduate and graduate level biomedical engineering courses is a must.
