Job Description

The College of Engineering at Michigan Technological University invites applications for the position of Chair of the Department of Chemical Engineering to begin July 1, 2025.

The Department of Chemical Engineering at Michigan Technological University seeks an individual who has a demonstrated record of scholarly and administrative achievement and will lead the Chemical Engineering faculty and staff in our mission of excellence in education, research, and service, while promoting our culture of safety and a welcoming, inclusive environment. We seek an individual with the vision and experience to elevate the prominence of the department in chemical engineering research, further our strong tradition of hands-on experiential education, grow our M.S. and Ph.D. programs, and work with all stakeholders to align the department activities and goals with the strategic plans of the College and University.

The department chair serves as the chief administrative officer for the chemical engineering department and is responsible for administration, budgeting, hiring, and fundraising in support of department goals. The chair serves as the primary liaison between the department and the university and external stakeholders, and is expected to expand and develop department collaborations and networks within and outside the university.

The chemical engineering department has strong research programs focused on solving global issues related to health, sustainability and resilience, energy, advanced materials and technologies, sustainable recovery and use of natural resources (minerals, biomass, water, etc.), and waste recovery and recycling. We are particularly interested in a department chair who can complement and enhance our existing research strengths.

Michigan Tech attracts world-class faculty and staff who enrich the educational experience of smart, motivated, and adventurous students. Applicants who are committed to promoting a sense of belonging and contributing to an equitable and inclusive learning environment for all are strongly encouraged to apply (<https://www.mtu.edu/diversity-inclusion/>).

EEO/AA Policy

Michigan Technological University is an Equal Opportunity Educational Institution/Equal Opportunity
