University. The chosen candidate will provide relevant and innovative instruction within the Engineering Management program, primarily for distance learning students. Applicants with expertise in all areas related to management science, operations research, analytics, engineering management, industrial engineering, and engineering technology are invited to apply, with particular consideration given to candidates with past online teaching experience in an engineering or industry management discipline.

This position is remote-work eligible.

The individual selected for this position will be expected to teach graduate level and some undergraduate courses, as departmental needs require. Other responsibilities may include service to the department and the university, industry outreach, mentoring graduate students and general academic and career advising and assistance.

The selected candidate will be given the appropriate rank based on college and university standards and policies.

This position is subject to the availability of funds.

Proposed Start Date: Fall 2025

Only applications submitted through the Texas State University website will be accepted and considered.

For more complete information and to assure full consideration, submit the following before December 2, 2024: <https://jobs.hr.txstate.edu/postings/48220>.

EEO/AA Policy

Texas State University is an Equal Employment Opportunity/Affirmative Action Employer.
