Job Description

The Department of Computer Science at Old Dominion University invites applicants for an Assistant Professor in the area of Cybersecurity & AI to begin in Fall 2025. This is a tenure track appointment as part of a multi-position hiring initiative for a Cluster Hire in **Trustworthy AI.**This multi-position cluster hire is part of ODU's Centennial Cluster Initiative, which supports the expansion of transdisciplinary research efforts by prioritizing the hiring of multiple faculty positions targeting specific research areas. The *Trustworthy AI* cluster hire involves interdisciplinary collaboration among School of Cybersecurity, Department of Computer Science, and Department of Sociology & Criminal Justice, and builds on existing interdisciplinary strengths at ODU.

The position carries a teaching load of 3 courses per year with a reduced course load during the first two years. The Assistant Professor will also actively pursue external research grants, supervise Ph.D. students, and participate in interdisciplinary research collaboration with other researchers at ODU. Undergraduate research supervision is highly recommended.

Assistant Professor of Trustworthy AI in Computer Science (Tenure Track)
Old Dominion University

About ODU: Old Dominion University, located in Norfolk, is Virginia's forward-focused public doctoral research university with more than 23,000 students, a top R1 research ranking, rigorous academics, an energetic residential community and initiatives that contribute $2.6 billion annually to Virginia's economy.

Old Dominion University was founded in 1930. In preparation for our centennial anniversary, the institution initiated the **Centennial Cluster Initiative,** a hiring program designed to hire interdisciplinary clusters of faculty around emerging themes. As the first step of that initiative, we seek to hire 25 scholars who can contribute to the university's growing research and teaching portfolio in the area of artificial intelligence. Those scholars will be housed in departments across campus and work together on scholarly activities related to artificial intelligence.
