landscapes, creating an inspiring learning environment. The university emphasizes accessible education, with most academic buildings connected by an underground tunnel system for easy navigation in any weather. Wright State University is ranked as one of the top institutions in Ohio for diversity, known for its inclusive campus culture and dedication to accessibility. Wright State is also recognized as a top research institution in Ohio, contributing to groundbreaking work in fields like neuroscience, biomedical research, and engineering, often in collaboration with the nearby Wright-Patterson Air Force Base. These accolades reflect Wright State's commitment to providing quality, accessible education and fostering a supportive, inclusive campus community.

The Department of Computer Science and Engineering at Wright State University, Dayton OH, seeks highly motivated, student-focused candidates for full-time, tenure-track Assistant or Associate Professor and non-tenure track Instructor positions. We value experience and interest in project-based active learning and curriculum development, and the ability to contribute through service and leadership to the department and our community. The Department has internationally recognized research programs in numerous fields including artificial intelligence, machine learning, data science, visualization and virtual reality, and cyber security. Candidates with teaching interest in all computer science and engineering fields including but not limited to computer science, information technology, and cyber security are encouraged to apply.

For more information on minimum requirements and to apply, go to <http://jobs.wright.edu> by December 9, 2024 for first consideration. Wright State University is an equal opportunity/affirmative action employer.
