Worcester Polytechnic Institute - WPI

JOB DESCRIPTION SUMMARY

JOB DESCRIPTION

Core Duties:

- Collaborate closely with the principal investigator to design and implement research studies.
- Examine experimental and clinical data, maintaining meticulous laboratory records.
- Consistently share findings with the principal investigator and fellow researchers.
- Aid in crafting technical reports, drafting grant proposals, and preparing scientific presentations.
- Play a pivotal role in peer-reviewed publications, as both a lead and co-author.
- Provide mentorship to both undergraduate and graduate students.
- Collaborate with a diverse team of research specialists.

Preferred Qualifications:

- A Ph.D. in electrical engineering, computer science & engineering, applied statistics/mathematics, or a closely related field; familiarity with cardiac electrophysiology modeling is advantages.
- A solid background and interest in numeric optimization, statistical inference, and machine learning and deep learning techniques.
- Proficiency in programming language (e.g., Python, C++, C#).
- Excellent interpersonal, communication and collaboration skills.

Application Instructions:

Interested candidates are encouraged to submit a cover letter (1 page), curriculum vitae (no page limit), and a 2-page statement detailing research interests and experience.

Contact: For further details, please reach out to Dr. Shijie Zhou at szhou12@wpi.edu.
